Believes Passage Certain

Sen. Ervin States Southern Filibuster Could Not Stretch Far Enough to Hurt

WASHINGTON — (AP) — Sen. Ervin (D-N.C.) said today it would be physically impossible for a small minority of Southern senators to filibuster long enough to prevent passage of the compromise civil rights bill.

While some of Ervin's constituents would like to see him filibuster, Ervin told the Senate, "I am compelled to recognize the facts of legislative life."

The North Carolina senator, a former judge, led off debate today against Senate adoption of the measure the House passed 297-97 yesterday.

One of those legislative facts, he said, is that opponents of the measure constitute "a small minority" of the Senate and it would be "physically impossible for that minority to filibuster until Jan. 2, 1959."

This was a reference to the fact that current Congress runs until that time.

Another fact of legislative life, Ervin said, is that a filibuster would increase the temptation of proponents of the bill to change Senate Rule 22 which allows unlimited debate on any issue.

Despite Ervin's stand, the Senate still expected some long talk by Southerners. But an all-out filibuster seemed unlikely.

Democratic Leader Lyndon B. Johnson of Texas said that as far as he is concerned critics of the measure will have all the time they need to talk against it.

Another signal that opponents of the measure may put a curb on their tongues came from Sen. Robertson (D-Va.).

The Virginian said in a prepared speech he would be willing to remain in Washington all fall to debate the bill "if I felt it would serve a useful purpose."

"But, if there are not enough members of the Senate willing to block passage now, I frankly doubt our ability to win a majority by forcing the Senate to remain in session for an extended period."

Only four other senators were on the floor as Ervin began his speech at a session which started at 10 o'clock, two hours earlier than usual.

Symphony Group Elects New Board Member

Mrs. John Zulauf was elected at a recent Sedalia Symphony Society board meeting to fill the two-year term of Scott Webber. Webber's resignation was accepted with regret by the board since he is leaving the city.

William C. Hopkins was unanimously elected vice-president of the board, a position vacated by Webber's resignation.

Jack Faber, president, announced that the artists for the 1957-58 season have been secured and dates set for the three concerts. A public announcement will be made in the near future.

Abe Rosenthal, conductor of the Sedalia Symphony Orchestra, was re-engaged for the coming year, as was Mrs. Carl Schrader, assistant conductor.

The board will hold another meeting early in September for the purpose of approving a constitution and by-laws now being prepared for use in incorporating the society.

Effects Economy

Sees Unprecedented Result From State Hiway Program

JEFFERSON CITY — The State Highway Commission predicted today its multi-million dollar construction program will have an unprecedented effect on Missouri's economy in the years to come.

"More money will be spent on modernizing and improving our highways than since the good roads surge first began in the 1920s," the commission said in a new pamphlet outlining Missouri's highway improvement program at the half-way point in the 10-year plan.

With the addition of federal aid funds under the interstate route construction program, the commission noted that Missouri's highway spending jumped from \$72,413,106 in the 1956 fiscal year to \$97,849,595 in the year which ended June 30.

Even larger federal aid grants are expected to push this year's

NEW WAF DIRECTOR—In a ceremony at the Pentagon in Washington, Gen. Thomas D. White, Chief of Staff of the U.S. Army, pins Colonel "eagles" on Emma Jane Riley of Plattsburg, Mo., who will become Director of the WAFs on Sept. 1. Colonel Riley will replace Col. Phyllis D. S. Gray, who is retiring. (NEA Telephoto)

Adjournment Not Rest

Missouri's Congress Members to Work On

WASHINGTON — The adjournment of this session of Congress will bring little rest for many Missouri members.

Rep. Carnahan (D-Mo.) appointed delegate to the United Nations by President Eisenhower, will go to New York next month to attend UN sessions, possibly until the end of the year.

Sen. Hennings (D-Mo.) is scheduled to attend a meeting of the Inter-parliamentary Union in London late in September as a delegate from this nation. He also will

Commanders Tell About Excess Parts

WASHINGTON — The former commanders of nine Far North air bases testified today they wound up with a surplus of at least 44 million dollars worth of spare parts they didn't need.

The figure may be even higher, they told the Senate Investigations subcommittee.

But, they reported some of the surplus was left over from World War II, and much of it resulted from changes in planes and other equipment assigned to the bases.

Maj. Gen. John D. Ryan, director of material for the Strategic Air Command, just back from an investigating mission to the bases, told the subcommittee at a public hearing the exact total still is unknown "inasmuch as we do not know what's still there."

The subcommittee, headed by Sen. McClellan (D-Ark.), placed in evidence excerpts from Army and Air Force inspector general reports admitting inaccurate records, improper inventory controls and other factors all entered into the picture.

Under questioning by Sen. Symington (D-Mo.), a former secretary of the Air Force, Ryan told the subcommittee part of the story lies in what Symington said were "17 instances of reprogramming" at the bases in the years after the Korean War.

Inspectors general reports told of a crash or rush program to build these bases defensively after Red China entered the Korean conflict.

The subcommittee is trying to spell out just how much was lost at the bases. The Pentagon already has confirmed it has recovered 20 million dollars worth of the parts and is taking steps to recover more.

Pass Bond Issue For Cape Girardeau Airport Improvement

CAPE GIRARDEAU, Mo. — A \$295,000 bond issue for improvement at the municipal airport passed yesterday in a special election.

The vote was 2,193 for and 784 against. A two-thirds margin was needed.

The bond funds will be matched with a similar grant from the government.

The money will be used for an administration building, an airplane parking ramp, two taxi strips and paving on the main runway.

Clouds and Showers Forecast for State

KANSAS CITY — Skies ranged from partly cloudy to overcast in Missouri today with scattered showers, especially in the north.

Mid-morning temperatures were in the upper-60s and lower-70s, between 68 at Springfield to 78 at Malden.

Rainfall reached .95 of an inch at Skidmore, with Oregon reporting .90, St. Joseph .89, Edgerton .85, Burlington Junction .59, Maryville .58 and other points less than half an inch.

Proxmire Wins Seat In Senate

Upset Victory Gives Liberal Democrat McCarthy Vacancy

MILWAUKEE — William Proxmire, a 41-year-old liberal Democrat, scored a smashing upset victory yesterday in Wisconsin's special election for the U.S. Senate seat left vacant by the death of Joseph McCarthy (R-Wis.).

Proxmire, who became the first Democrat elected to the Senate by this state in 25 years, scored his victory over Republican three-term governor Walter J. Kohler, a staunch supporter of President Eisenhower and twice a victor over Proxmire in races for the governor's post.

The election is for the 16 months remaining of McCarthy's term. Proxmire will take office as soon as he is accredited by the State Canvass Board. That probably will be within 10 days.

The victory will give Senate Democrats 50 seats compared with 46 for the Republicans.

The stormy 10-year Senate career of McCarthy never became a potent factor in the campaign.

The issues that decided the election were diverse and hard to explain because the state usually is firmly Republican in its choice of top officers.

Proxmire's victory was made more impressive by the margin he rolled up—more than 121,000 votes, with only about 30 per cent of the state's eligible voters taking part. Even so, the total vote was higher than anyone except state Democratic party officials predicted.

The total vote of nearly 800,000 is about 300,000 more than the 500,000 who turned out for the primary four weeks ago to name the nominees.

Rep. Karsten (D-Mo.) will return to St. Louis shortly after the final gavel drops. But he, too, is due to come back in September for a meeting of the Migratory Bird Conservation Commission of which both he and Hennings are members. This commission is among other duties the purchasing of lands for federal wild life refuges.

Karsten said he has suggested a plan to speed up acquisition of lands for the program so it can be completed in 40 years. He said the program would take 400 years under its present pace. And, he adds, there will be little wild life existing by 1975 unless the program is stepped up. His plan is to be completed in 40 years.

In yesterday's balloting, Proxmire drew just over 56 per cent of the total vote cast. In the primary, the seven-man Republican field drew 69 per cent of the total cast. Proxmire defeated Rep. Clement Zablocki (D-Wis.) in the two-man Democratic primary.

Final unofficial returns from 3,357 of the state's 3,361 precincts gave Proxmire 435,085 votes to 313,631 for Kohler. Three independent candidates, including two who said they would carry on the policies of McCarthy, drew less than 24,000 among them.

Hal Boyle's Column

Send Abandoned and Antique Airplanes to Frank Tallman

By HAL BOYLE

NEW YORK (AP)—Frank Tallman is a young flier with a soaring ambition—he wants to create a museum in the sky.

If you have an abandoned elderly airplane in your backyard, call Tallman. Thousands today collect antique autos. Tallman is a pioneer in a newer and limited field—the preservation of antique airplanes.

He is a leader in the small but growing number of enthusiasts who seek to salvage for posterity the remaining winged remnants of the early air age. But the airplanes he finds and rebuilds aren't destined, he hopes, for a dusty museum. He wants to put them back in the sky—at America's air shows—where they belong.

"I don't think it's quite enough to see the color and beauty of the past, unless it's out in the sunshine working," he explained.

Flying long has been the main interest of Tallman, a slender 30-year-old man with a straw-colored mustache that makes him look like a British sergeant major. His father, a World War I naval pilot, let him take over the controls of a plane at 5.

Since then Frank has logged more than 6,000 hours in more than 75 types of aircraft, ranging from 1910 Blériots to flying boats, gliders, bombers and jets. He was a Navy flier in the last war, has served as a test pilot, and is one of a comparative handful of U.S.

and piping! RIGHT: for the younger misses for classroom or parties—featuring T-straps, lustre leathers, one-strap pumps and other high-fashion notes.

Senator Urges Acceleration On Missiles

WASHINGTON (AP)—Sen. Jackson (D-Wash) urged today that the United States accelerate its missile program and boost production of long-range bombers in the light of Russia's claim to have tested successfully an intercontinental missile.

"Perhaps the Russians have rendered us something of a service, if the Defense Department will take heed of the danger," Jackson said. "The Soviet announcement should be the signal to the defense administrators to reverse the missile slowdown."

Meanwhile, the Eisenhower administration issued a statement crediting the Soviets "with substantial progress in the long-range ballistic missile field."

But this statement, put out by Acting Secretary of Defense Donald A. Quarles, also said Americans officials have "made it clear that our own work in this same field is being pressed forward on a broad front and with a high priority."

The statement, cleared by the White House and the State Department, described as "greatly exaggerated" the immediate military significance of what has been termed an American-Soviet race to develop a missile capable of carrying a nuclear warhead 5,000 miles.

Quarles said, "Time differences in terms of operational readiness will probably not be very great one way or the other."

The administration's statement suggested the Moscow announcement "may have been timed in relationship to the London talks" of the five-power Disarmament subcommittee. Yesterday, in London, Soviet Russia rejected the West's newest disarmament proposals and accused the West of preparing for war.

Jackson and Sen. Symington (D-Mo.) took similar positions yesterday in accusing the administration of slowing American activities in the missile field. Sen. Saltonstall (R-Mass.) disputed this.

Jackson said the Defense Department is now engaged in a general cutback in defense programs

Man With Injured Back Rescues Boy

WINTERS, Tex. (AP)—J. U. Juernigan, 68, whose back was broken in an accident four years ago, swam from the bank and rescued a 4-year-old boy when a boat overturned.

Juernigan, who said if the shore had been "another 10 feet I couldn't have made it," swam about 150 yards into the lake to save Richard Simpson.

The boy's father, Emmett Simpson, 44, and Ben Nitsch, both of Winters, drowned.

and that "in this cutback even the ballistic missile program—despite its priority—has not been spared."

Symington, a secretary of the Air Force in the Truman administration, said that "because of budget and fiscal considerations, the administration recognizes this, the gravest threat ever faced by the United States, by slowing down our activities" in the intercontinental missile field.

But Saltonstall said it "is not my understanding at all" that there has been a slowdown in missile work.

"There has been no cutback in research or development of the intercontinental ballistic missile or in guided missiles," Saltonstall said.

CAP Cadets Will Get Chance to Fly Jet Plane for Short Time

PERRIN AIR FORCE BASE, Tex. (AP)—Fifty youths from 47 states—all Civil Air Patrol honor cadets—will realize dreams today with a chance at the controls of a jet scheduled for each.

The cadets, aged 16 to 18, are from every state except Rhode Island. All are considered prime Air Force officer material because of their cadet records. They are getting the VIP treatment.

They came here Sunday and have gone through an orientation course.

Each is paired with an instructor pilot. An Air Force spokesman said 16 had previously piloted planes and would take the controls within 20 to 30 minutes of being airborne today.

All are expected to be piloting

Twyman-Hyde Nuptials

In a double ring ceremony performed at Westminster Presbyterian Church in Dayton, O., Miss Elizabeth Gail Twyman, daughter of Mr. and Mrs. Alan B. Twyman, Dayton, became the bride of John Paul Hyde, son of Mr. and Mrs. Robert Hyde, Cincinnati, Friday, August 16. The Rev. Joseph Hensen performed the ceremony at half past eight o'clock in the evening. The wedding day was the 49th wedding anniversary of the bride's grandparents, Mr. and Mrs. B. Franklin Parker, LaMonte, and the 27th of her parents.

Given in marriage by her father, the bride wore a gown of embroidered candlelight satin. The fitted bodice was fashioned with a V neckline featuring a dropped Peter Pan collar. The bouffant skirt extended to a chapel train. Her veil of French illusion was held in place by a crown of Chantilly lace edged with pearls. She carried a cascade bouquet of white orchids and stephanotis.

Preceding the bride to the altar as junior bridesmaid was her sister, Sara Twyman, and maid of honor, Miss Deborah Tritch, Dayton, O. Bridesmaids were Miss Jane Peters, Miss Elizabeth McFarland and Mrs. A. P. Twyman, all of Cincinnati.

The attendants wore ballerina length gowns of violet taffeta with shaded violet chiffon neck drapery which fell to the hemline. They carried cascade bouquets of yellow daisy chrysanthemums and wore matching crowns.

Little Isabel Swank, daughter of Mr. and Mrs. P. R. Swank, St. Louis, was flower girl. She wore a floor length dress of violet taffeta and chiffon and a daisy crown. She carried a gold braided basket.

Robert Hyde, Cincinnati, was his brother's best man. Ushers were Donald Moak, Columbus, O., William Kramer, Dayton, Vincent Orlando, Collingswood, N.J., and A. P. Twyman, Cincinnati.

For her daughter's wedding Mrs. Twyman wore a gown of imported mink colored lace with bronze accessories and carried bronze and yellow orchids on her purse. The groom's mother wore dusty rose lace with Wedgwood blue accessories and white orchid corsage. The bride's grandmother, Mrs. B. F. Parker, wore dark blue chiffon with a white rose corsage.

Following the ceremony a reception was held on the lawn of the bride's home.

After a wedding trip to Ontario, Canada, the young couple will be at home in Dayton, O.

Mrs. Hyde attended the University of Cincinnati and was a member of Kappa Alpha Theta sorority.

Parents Receive Warnings to Take Child Out of School

NASHVILLE, Tenn. (AP) — Parents of a Negro child who registered for the first grade at a formerly all-white school told police last night they had received warnings to take the child out of the school.

It was the first annual "courtesy Day" sponsored by the Allied Florists' Assn., and the judges had 100 bouquets to give away.

By late afternoon they had found only 70 deserving drivers and the sun had wilted away the awards.

One happy woman driver exclaimed: "I'll have to take the flowers home to my husband or else he'll never believe this."

"I'm AWOL from my wife in Cincinnati," said another driver who refused to give his name and drove off hurriedly after receiving the floral gift.

"If I take my boy out," Mrs. Rucker said, "it will be because there are only three colored children in the school and not because we are afraid."

Rucker said the child was sent to the school because it was the most convenient.

Nashville parents registered their children yesterday in a city-wide desegregation movement at the first-grade level.

Mr. Hyde is a graduate of University of Cincinnati and was president of his fraternity, Sigma Alpha Epsilon. He is a lieutenant in the Air Force and will soon be stationed at Lackland AFB, Tex.

Judges Have Too Many Bouquets for Drivers

ST. LOUIS (AP) — Eighty judges stood at intersections yesterday and bestowed bouquets upon courteous drivers.

It was the first annual "courtesy Day" sponsored by the Allied Florists' Assn., and the judges had 100 bouquets to give away.

By late afternoon they had found only 70 deserving drivers and the sun had wilted away the awards.

One happy woman driver exclaimed: "I'll have to take the flowers home to my husband or else he'll never believe this."

"I'm AWOL from my wife in Cincinnati," said another driver who refused to give his name and drove off hurriedly after receiving the floral gift.

Mama Uses Muscle

DETROIT (AP) — A little muscle and leverage applied by mama did the trick where a policeman failed.

Mrs. Laturis Robinson's 3-year-old son Robert got his head stuck between a car bumper and the bumper guard.

A policeman gave up the effort of trying to free Robert and departed in search of a hacksaw. While he was gone Mrs. Robinson gave one last good tug. Robert was freed without even a scratch.

THURSDAY United Church Women will meet in dining room of Federated Congregational Church at 9:30 a.m.

Sorority Enjoys Surprise Program

Phi Phi Chapter of Beta Sigma Phi met at the home of Phyllis Howard with Miss Betty Schlobohm serving as hostess. Seven members and two advisors were present.

Mrs. Rosalie Edwards, president, announced that the business meeting would be held following the surprise program. The members went to the First Christian Church where they were greeted by Mrs. Kay Tevis, who showed a film on Susan B. Anthony's fight for women suffrage. The group returned to the Howard home for the business meeting. Refreshments were served.

A small mollusk, known as the teredo or shipworm, causes millions of dollars of marine damage each year. It mines through wooden piles and ship timbers with its shell's rasp-like surface.

Teen Label Taboo

High School Girls Have Definite Ideas on Fashions

By DOROTHY ROE
Associated Press Women's Editor
If you want to be friends with a high school girl, don't call her a teen-ager. And don't give her clothes with a teen label.

Today's young ladies between the ages of 13 and 17 refuse to be identified with the teen tag, connect it with all the furor over juvenile delinquency and consider themselves grown-ups. This probably is the only age at which girls want to be older.

They go shopping for their own clothes, and often earn the necessary money by baby-sitting. Most girls of this age bracket shop in groups, obeying the herd instinct, trying on countless dresses before selecting one. And almost any girl over 12 and under 20 would rather be caught dead than go shopping with her mother.

These not-quite-adults have definite ideas on fashion. They love Shetland sweaters, Bermuda shorts, Ivy League boys' shirts, tight-fitting sheaths worn without girdles, full-skirted dance dresses with multiple petticoats—and black in almost anything, from lingerie to sweaters.

This fall the girls will go back to high school in middies and pleated skirts, in slim tweed skirts and sweaters, in dark-toned Bermuda shorts, sweaters and boys' shirts and knee-high socks to match the sweaters.

Lorraine Jagels Will Receive Nursing Diploma on Friday

Lorraine Jagels, daughter of Mrs. Erna Jagels of Cole Camp, is one of 21 girls who will receive diplomas from the Burge Hospital School of Nursing in ceremonies Friday night at 7:30 in Stone Chapel on the Drury College campus in Springfield.

Principal speaker will be Dr. M. Graham Clark, president of the School of the Ozarks. A reception will follow for the graduates and will be held at the Fountain Plaza Room in Burge Hospital.

REAL CASUAL—The high-school crowd has a yen for box-pleated culottes in black wide-wale corduroy with matching loose poncho and white cotton knit middy with bright red tie.

MODERN PILGRIM—This is the Mayflower look currently beloved by the young. It is black corduroy with wide white collar, shiny brass buttons and belt buckle.

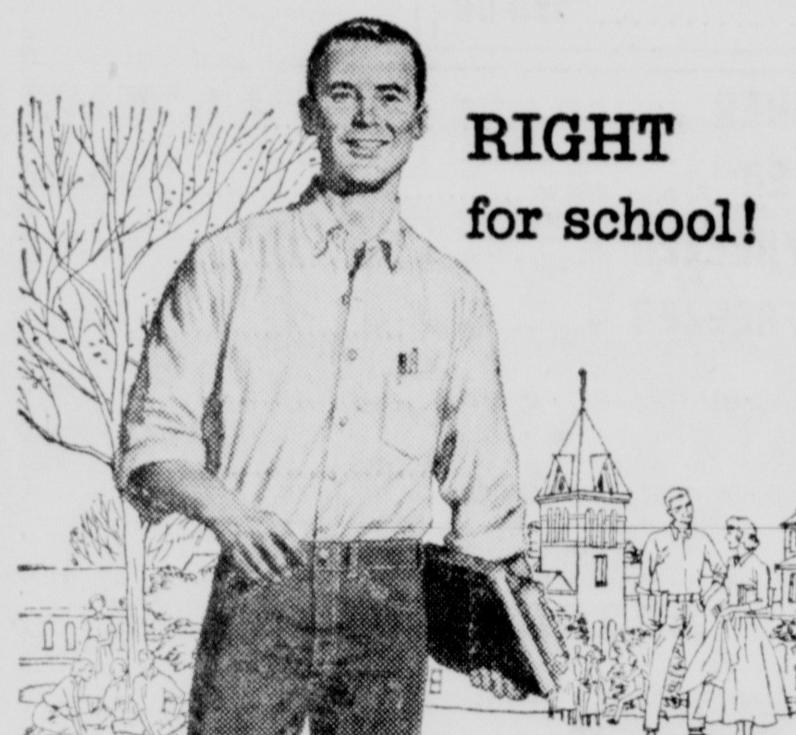

REAL SPORTY—LOOKING is this long-sleeved ski-type pullover. A bright Scandinavian print across the chest and at the waist gives this sweater that certain "boy appeal."

Today's College Fashions Are An Echo of the '30s

By DOROTHY ROE
Associated Press Women's Editor

Girls starting off to college this fall may note a nostalgic look in the eyes of their mothers, as they help pack the new campus clothes. For the last word in college styles, as established in the St. Louis junior market, is almost an echo of the 1930s.

There's the Chanel look, the middy, the pleated skirt, the unfitted, no-waistline silhouette—all very similar to campus styles of a generation ago. Even the raccoon coat is back, both in full-length versions and as trim on cloth or leather coats.

Somewhat the 1957 vintage clothes manage to look more graceful than those of Mother's day—perhaps because of the greater skill of today's designer and man-

ufacturer. They have an easy, stretched-out look, come in a variety of handsome fabrics and are flattering to slim young figures.

Largest

Everglades National Park, occupying the southern tip of the Florida peninsula, is the largest subtropical wilderness in the United States. It has a land and water area of approximately 1,500,000 acres, supporting many forms of plant and animal life.

Radio Broadcast Inventor Celebrates 84th Birthday

HOLLYWOOD, Calif. — This is the 84th birthday of Dr. Lee de Forest, the inventor who made radio broadcasting possible. His comment: "Now I'm shooting for 94."

The mere matter of years doesn't impress the man who paved the way for the electronic age by developing the three-element vacuum tube 51 years ago. Still physically active and young in spirit, he spends far more time inventing than he does worrying about his age.

Smith Named Personnel Head For Railroad

Ben W. Smith, formerly assistant chief personnel officer for Missouri Pacific lines, has been promoted to the post of chief personnel officer for the road. He succeeds Theodore Short who was appointed chairman of the Western Railways Carriers Conference Committee with headquarters in Chicago.

Smith had been Short's assistant for the past ten years in matters related to contract negotiations with the various railroad labor organizations. Mr. Smith, in turn, is succeeded by J. A. Austin, formerly a division superintendent at Osawatomie, Kan.

A native Missourian, Smith was born at Pilot Grove, Jan. 1, 1902, and began his railroad career as a station clerk at Bunceton in 1921. He progressed through the ranks of the operating department as a car distributor and car service agent until his appointment in October, 1926, as assistant treasurer of the Union Railway of Memphis, Tenn. He remained with that organization until 1941, when he became trainmaster for the Missouri Pacific at Jefferson City.

In 1943 he was appointed superintendent of safety for the road and three years later was named division superintendent at Poplar Bluff. It was from this position that he was promoted to assistant chief personnel officer in 1947, with headquarters in St. Louis.

J. D. Drive INDIANAPOLIS, Ind. — Notable success in combating juvenile delinquency has been reported by the Rev. R. Edward Dowdy, chairman of the Court and Probation Committee of the Church Federation of Greater Indianapolis.

Since the committee's juvenile referral plan was launched in 1946, he said, the names of some 900 guided have not appeared on police records a second time.

The Federation also operates a camp for "difficult" youngsters.

Flat Heels Are Popular With Girls

Flats will get a high grade with the college girl again this year. But it's no longer good form to go steady with just one pair. Today a girl likes to have a variety of flats at her beck and call—enough to match the costume, the occasion and the mood.

Bermuda shorts and knee socks still require loafers. But while they may be the brown ones with crossed-over straps just like the college man's, they may also be plainer, unstrapped moccasins in a color to match the shorts. Many girls' flats also have elasticized toplines.

In loafers and other flats, softness is the distinguishing feature that sets them apart from last year's. Their trim leather soles and their soft leather uppers are often so flexible the whole shoe can be rolled up into a ball in the hand.

There are two main ideas in flats. One is the plain, soft, moccasin version in the same color as the skirt and stocking above it. This all-of-a-piece way of dressing has a way of drawing attention to a well-fashioned ankle. Even the most flexible moccasins have resilient leather soles—a boon on hikes.

But flats may also be quite dressy with spectator-type perforations, tiny laced weskits, self bows of leather and inserts of contrasting leather texture or color.

Fashions for a male's outdoor

traditional fine wool are both popular for this fall.

Hooded jackets will be popular with boys eight to eighteen as well as with older males.

In winterweight wools, they give just the protection needed for walks to school and after-school hours spent out of doors. These come in colorful blanket plaids, solid colors and a variety of stripes.

For more dressy occasions, when a short outer jacket won't do, a camel color, slim-cut wool topcoat, double-breasted with belted back, or a tweed coat in the looser raglan cut is required.

Swaters for outdoor wear and for classrooms come in a variety of color and pattern, high-style like those designed for older men. Bulky wools in soft Shetlands and

stripes and color really come

into their own in knits for the male wardrobe. Scandinavian-inspired designs are still holding sway in the boys' wear scene, but collegiate stripes and solids with fancy neck stylings are also fashion leaders with the younger lads.

Backward

Twi tribesmen of Melville and Bathurst Islands, off the northern coast of Australia, have no agriculture, no pottery and no domestic animals except the dog. Their weapons are spears and sticks.

Hold Yearling Hens for Fall Egg Market

The favorable price outlook for graded eggs this fall should cause Pettis County poultrymen to consider keeping their yearling hens. With reasonable care, the majority of these hens should be able to return an additional 50 cents to \$1 between now and Dec. 1. If you are crowded for space, move the old hens into some temporary quarters and use lights on them to maintain egg production. This will make the laying house available for the young pullets which are about to reach maturity. The old layers should be sold in early winter or at the time they go into a molt.

What about hens that are producing at a low level now—should they be sold? The answer to this question is no. Most hens are off in production now on account of the warm weather. Chances are the majority of them will be back producing at a profitable level by the middle of September or when the days become cooler. If they were placed on the market now, they would do well to pay the chick cost. Besides, you would be losing about a dollar per bird in depreciation costs.

The advantages of keeping yearling hens for an additional three to four months of lays are: (1) You get more eggs during the fall months when egg prices are high. (2) You get large eggs at the time young pullets are coming into production and laying small eggs. (3) You reduce the depreciation cost

Ohio PTA Raises Money For Grade School French Teacher

AKRON, Ohio (AP)—When the parents got together and offered to put up the money themselves for a trial course in French at an elementary school here, how could the school board say no?

The board did not turn them down, but there was considerable objection before the program was approved for Fairlawn school.

Mohler said he "shuddered at the idea that education may be based on the ability of parents to pay."

Spokesmen for the Fairlawn PTA, which has promised to collect a minimum of \$4,200—about \$8 per family for the year—say it privileges to any one school.

School officials believe Fairlawn will be the first elementary school in Ohio to offer a foreign language throughout the grades.

Optimist Plan Boys Town Choir Show

The Optimist meeting Tuesday noon at Bothwell Hotel was devoted to preliminary plans for the appearance of the world famous Boys Town Choir, which will be presented at the coliseum at the Missouri State Fair Grounds the evening of Oct. 10, sponsored by the Optimist Club.

Founded in 1917 by the late Father Edward J. Flanagan, as a haven for five homeless boys, three from the juvenile court and two newsboys who had no homes, Boys Town has had 8,000 graduates, who have gone out into the world as fine citizens. In the famed City of Little Men just west of Omaha now live 900 boys.

Competition runs high for places in the touring choir and since 1946 the annual tour had carried the choir 70,000 miles for 350 concerts. The Optimists feel they are very fortunate to secure for the people of Sedalia and surrounding area the appearance of such an outstanding group as Boys Town Choir.

Organization of committees and work on the project is well underway, according to Jay Lazerson, chairman.

The meeting was presided over by Claude L. Boul, president, with invocation by Larry Wanserski; Charles Hanna led the singing with Miss Lillian Fox at the piano.

Dr. Carl Almquist, a dentist and native Sedalian, who has recently returned to Sedalia from Texas, where he was member of the Optimist Club, and has transferred his membership to the Sedalia club, was introduced. Norman Silberstein of St. Louis, was also introduced as a guest of his brother, Harold Silberstein.

Short reports were given by the following committee chairmen: Dr. H. O. Wilbur, attendance; Stanton Hudson, Jr., Boy's Work; Charles Hanna, membership; Richard S. Morgan, new club building; Ed Kuhn, program and Maurice F. Hogan, public relations.

Babe Ruth Title Will Be at Stake In Game Tonight

Anderson's and McCowns battled it out in one of the best played games of the season in Babe Ruth Monday night as Anderson's bested McCowns 10-0. Both teams played very fine defensive ball and the pitching was excellent. Corson, on the mound for Anderson's allowed but one hit and Shultz, pitching for McCowns did almost equally as well, being touched for but three hits. Gary Wahrenbrock obtained the only hit for McCowns, while Hanigan, Nichols and Barnes each had one for Anderson's.

The second game of the evening, between the same two teams, saw McCowns edging Anderson's 5-4 in an extra inning game. Keltner was the winning pitcher for McCowns, allowing but five hits. These were by Hanigan, Nichols and Ravenscraft with one each and Tim Morgan with two out of three. Meanwhile McCowns were able to score five runs on just two hits. These were by Schott and Wedle. Keltner was in trouble in only one inning, the third, when two hits and six walks produced all of the runs for Anderson's.

Tonight at 8 p.m. Western Auto meets Mullins for the championship of the league. These two teams are presently tied for the league lead with 10 victories and four defeats. In the first game of the evening Phillips plays McCowns at 6 p.m. Thursday night will wind up the season's play when Anderson's will meet Phillips in a single game.

Approve Howard Road Bid, \$450,221

In approval of bids totaling \$5,365,944 for 187 miles of improvements on state highways by the Missouri Highway Commission was one for six miles of grading, rolled stone base and asphaltic concrete pavement from U.S. 169-136 east of Union Star, south to Route 6 in DeKalb County to Howard Construction Co., Sedalia, \$450,221.

Extend Race Contract At DuQuoin Grounds

DUQUOIN, Ill., Aug. 26.—The Hambletonian Society's board of directors today extended the present contract for the harness racing classic for one year at the DuQuoin State Fairgrounds. This means this southern Illinois mining community will be the scene of the event through 1939.

Stan Musial Makes Token Appearance

By THE ASSOCIATED PRESS
Lindy won, Von lost and Stan Musial's National League consecutive game playing record stands at 885 games.

That, in capsule form, describes the fortunes of the St. Louis Cardinals in a two-game program at Pittsburgh last night.

The first game 11-2 victory was mere exercise as the Cards and the Pirates played out the ninth inning of a game suspended July 21.

The victory belonged to Lindy McDaniel and was his 11th in 19 decisions.

In the first game Musial ran for Ken Boyer in the top of the ninth and played first base as Lindy retired the Bucs runless in the bottom of the inning.

The token appearance stretched the iron man streak to 895 games. The old mark of 822 was set by Gus Suhr of the Pirates in the 1930s. The American League record is 2,130 games by Lou Gehrig.

If Stan hadn't appeared in the first contest, his record would have been 862 consecutive games. An injury last week ended Stan's streak.

In the second game, Von McDaniel and Bob Friend tangled in a mound duel and Friend came away a 2-1 winner.

Al Dark's double and Frank Thomas' throwing error made the Cards' run in the third inning.

Bill Mazeroni's eighth inning RBI single spelled Von's downfall. Von deflected the ball over to Dark but Al couldn't come up with it. It was ruled a base hit. At Kansas City, Jack Urban knocked off the Washington Senators, 3-1, on a thirty three hitter.

The A's scored against loser Camillo Pascual in the first as Vic Power punched a leadoff single and Joe Demaestri doubled him to third. Gus Zernial's infield grounder scored Power and Hec Lopez doubled home Demaestri.

The Senators cut the margin in half in the sixth. Jim Lemon singled, took second as Roy Sievers walked and darted home on Lou Berberet's single.

The final run was made in the sixth. Billy Hunter singled, went to second on Urban's sacrifice and cashed in as Power singled.

PRACTICE INTENSIFIES for the East Team football squad. Each night for the past two weeks, and sometimes during the day, these players have been working out under the direction of their coach, Paul Pappas. The game is scheduled for Friday night, Aug. 30, at 8:30 o'clock. It is then that they will meet the best the west half of the state has to offer. Plenty of action, competition, and fine playing will be exhibited. Tickets are still on sale.

Sweet Springs Race Track Has 'One of Best'

One of the best races of the season at the Sweet Springs Memorial Race Track was witnessed by a comparatively small crowd due to the state fair. Several cars were on hand to make for some fast and exciting races.

The trophy dash was an all-the-way battle between Jim McCale, Doug Crank and Irvin Shick, with Doug finally getting the jump for the victory.

Doug, from Sweet Springs, won the trophy.

In the first heat Irvin Shick of Alma was first, Jim McCale of Kansas City was second, and Louie Seigel of Kansas City third.

In the second heat: 1. Harold Schoeder, Kansas City; 2. Doug Crank, Sweet Springs; 3. Jack Lemmons, Kansas City.

In the "A" feature: 1. Doug Crank; 2. Irvin Shick; 3. Jim McCale; 4. Bill Utz; 5. Louie Siegel.

Consolation: 1. Louie Siegel; 2. Harold Schroeder; 3. Glenn Arnold.

These races are held every Sunday at 2:30 p.m. A large number of entries are expected this week from neighboring towns.

(11-8 vs Narleski (9-3) (N.), Boston at Detroit — Sullivan (10-9) vs Bunning (15-6).

The Whiteman AFB team was eliminated in the quarterfinals.

Ted Williams Makes Gain On Batting Title

DETROIT (AP) — Ted Williams, frisky as a colt despite his 39 years, has passed another hitting milestone in his white-hot struggle with Mickey Mantle for the American League batting title.

Williams cracked the 450th home run of his major league career last night as his Boston Red Sox nipped the Detroit Tigers 7-5 in 11 innings. So wrapped up is Williams in his duel with the New York Yankee slugger 13 years his junior that he did not realize his fifth inning smash into the upper right field stands of Briggs Stadium was No. 450.

"That's wonderful," said Williams when he learned of it. "I'd live to hit 495 of them."

Williams needs 45 more round-trippers to pass Lou Gehrig, who ranks fourth among baseball's all-time home run hitters.

"Right now I have to think of that batting title," said Williams. Williams collected two hits in four official trips last night and gained a point to .380. Mantle was 1-for-4 against Chicago and slipped a point to .376.

The Boston slugger said three starts and no injuries."

John Simmons Wins First Alternate Spot For Golf Tournament

KANSAS CITY (AP) — Tom Stephenson and Jerry Krause of Kansas City and Bill Stewart of Springfield, Mo., qualified here yesterday for the National Amateur Golf Tournament in Brookline, Mass., Sept. 9-14.

Stephenson, the medalist with a 6-over-par 74-76-150 in the field of 30 players, qualified for the fifth time.

Krause, 18, a University of Kansas sophomore, had a 73-78-151, Stewart, Missouri champion in 1956 and 1957, shot 75-77-152. He was tied with Lee McGuire, Leavenworth, Kan., who had 78-74, but McGuire dropped out in favor of attending classes at Stanford University.

Stewart previously was an alternate four times.

John Simmons, Sedalia, Mo., won the first alternate spot in three extra holes after a deadlock with Glen Oatman, Kansas City, at 153. Simmons, 18, is a sophomore at Oklahoma State.

Williams is responsible for his tremendous batting this year: "A full spring training period, a fast

pace and a good diet."

"The Boston slugger said three starts and no injuries."

Defensive Play Results In Victory

NEW YORK (AP) — If Manager Fred Haney of the Milwaukee Braves were asked to single out the game which gave him the most satisfaction this season, he undoubtedly would select last night's 4-3 triumph over the New York Giants.

Not so much because the victory boosted the Braves' first-place margin over St. Louis to 7½ games. Or because all the runs were furnished by left-handed power, a commodity the Braves sorely lacked last year. Or because Don McMahon, his new bullpen ace, came through with a perfect two-inning performance to preserve Lew Burdette's 14th victory.

To Haney's way of thinking, the turning point came in the sixth inning when long-practiced defensive play by the Braves came off to perfection and resulted in an odd double play that averted a possible big inning by the Giants.

"That play was worth all the hours and all the work we put in this spring," declared the little manager.

Milwaukee was leading 3-1 but Willie Mays was on third with nobody out and the dangerous Ray Jablonski was the batter. Jablonski hit a crisp grounder to third baseman Eddie Mathews and Mays was trapped. Mathews tried to zig-zag between third and home but Mathews and catcher Del Cran-

Confidential Trial Shows Man not There

By BOB THOMAS

LOS ANGELES (AP)—As the Confidential Magazine trial goes into its fourth week today, witnesses have sketched an intriguing picture of the man who wasn't there. He is Confidential publisher Robert Harrison, who is mentioned constantly in the testimony but stays far, far away from the courtroom, in New York.

Actually, there are two pictures of Harrison. According to prosecution witnesses, he is a terrible tempered man who will go to any extreme to sell magazines. According to defense witnesses, he is a certain segments of the Ameri-

can public. He apparently was impressed by the sales of the Jack Lait-Lee Mortimer books, "Chicago Confidential," and "Washington Confidential," and borrowed the title from them.

Another thing that impressed him was the way Americans remained glued to their TV sets during the famed Kefauver hearings that starred Frank Costello's hands, Virginia Hill, etc.

The Confidential setup has been limited to New York state so as to eliminate tax and other dealings with "foreign states." This has made it difficult to pin the magazine down on legal matters.

No doubt about it, Harrison and Confidential are part of the social phenomenon of the United States at mid-century.

Among those covering the trial, the man who gets the most attention is an artist for a magazine. Most of the principals in the trial oversee his work and approve or disapprove how they are portrayed. Once he drew a sketch of a juror drawing a sketch of the prosecutor. No, the prosecutor wasn't drawing a sketch...

Ike Expected To Veto Pay Increase Bill

WASHINGTON (AP)—Two bills to boost pay of 1½ million federal employees by about \$50 million dollars a year were on their way today to President Eisenhower and what appeared to be certain vetoes.

Republican leaders told the Senate just before the bills were passed late yesterday they were certain the measures never would become law.

The President has 10 days to act on them, and Congress is expected to be out of town by that time. Thus, he could pocket veto them.

One of the bills would raise pay of 518,000 workers by \$546 each year at an estimated cost of \$17 million dollars. This bill passed 69-17.

The other, passed 64-22, would boost salaries of a million classified civil service, congressional and judicial employees by 11 per cent a year. This would cost about \$32 million dollars annually.

Both measures had passed the House earlier in the session. The votes in that body, as in the Senate, were well above the two-thirds margin necessary to override a veto.

However, GOP leaders said privately they were sure a veto could be sustained if the issue arose, because they believe several additional Republicans would rally to the President on such a vote.

LOOK! CARE-FREE, CLEVER COTTONS that any seamstress can sew smartly for the back-to-school set! Both styles feature full-skirted detail; new, bright plaids and dacron-and-cotton blends for easy-washing . . . little or no ironing!

Assistant Cashier Admits Robbery Hoax; Held for Embezzling

KANSAS CITY, Kan. (AP)—Ira G. Maddux Jr., 34, is being held under \$15,000 bond for federal district court trial in November on a charge of embezzeling \$24,200 from the Victory State Bank here.

Maddux, assistant cashier of the bank, waived preliminary hearing at his arraignment late yesterday.

He told police the bank was robbed by two men when he arrived for work early yesterday, but later admitted his story was a hoax.

FBI agents said Maddux apparently started taking money from the bank in June.

Police said he showed them where he had buried money for a while in the garden at the Independence, Mo., house where he lived alone.

The only luxury items in the house were three air conditioners, a baby grand piano and a \$1,600 high fidelity phonograph. Maddux also drove a German sports car.

Psychiatrist Says Results Supernatural

NEW YORK (AP)—Billy Graham says a psychiatrist has conceded to him that there is "something supernatural" about the responses to his call for "decisions for Christ."

Graham told an overflow crowd at Madison Square Garden last night that the psychiatrist told him he had tried to analyze what moves a person to make a "decision."

"He finally told me," the evangelist said, "that he couldn't figure it out and that he would have to take my word for it that there's something supernatural there."

Graham's voice thundered over the public address system. His hands gesturing, he declared:

"There is." Then, he added: "This is not Billy Graham, this is not organization, this is not publicity—this is God."

At the close of the meeting, 621 persons came forward at Graham's urging to "do something to demonstrate that by faith you have received Christ."

Graham has four more talks scheduled for the arena this week. He is scheduled to bring his New York crusade to a close Sunday night with a rally in Times Square.

The crusade opened here May 15. It will have lasted more than 15 weeks when it ends Sunday night. This is about three weeks longer than the evangelist's visit to London in 1955.

The Graham organization announced that the evangelist's previously discussed plan to make a Caribbean tour this winter has been made definite.

Graham will tour nine Latin-American countries, starting about Jan. 20.

Dr. Yates Trotter of the U.S. Public Health Service has said the usual incubation period for that type of flu is one to three days, but that development of illness may take as long as seven days after exposure in exceptional cases.

So it appears, on the basis of what Trotter said, that Eisenhower is not going to get the flu as a result of the two suspected exposures last week. But it isn't known for sure whether he may have been exposed again later in the week, and—if he was—whether the disease might develop as a result.

Eisenhower was inoculated against Asian flu last Monday. But the vaccine is not effective against exposures which occur in advance of inoculation. And it takes 10 to 14 days, Trotter said, to build up an immunity after an inoculation.

The President has shown no sign of developing the flu. He played golf yesterday afternoon and later went to Walter Reed Army Hospital to visit Mrs. Eisenhower, who is recuperating from surgery Aug. 6.

Interpreters will be used in areas where Spanish is the predominant language.

Last night about 2,500 persons were turned away from the Garden. Graham spoke briefly to them before the regular meeting. There were 19,200 persons inside the building.

THE SEDALIA DEMOCRAT—Sedalia, Mo., Wed., August 28, 1957 11

Tony Perkins Can Do It, If Tab Can

By BOB THOMAS
HOLLYWOOD (AP)—If Tab Hunter can do it, so can Anthony Perkins.

Sing, that is. I guess you call it singing, though some unkind critics of Hunter's vocal efforts have indicated otherwise. Not so his fans. They hustled out to buy a million and half of his platters of "Young Love."

Now it's young Perkins, another idol of the malt-shop set, who's coming out with a disc called "My First Romance."

The lad has a nice, boyish style and a voice that is well pitched and true, even if it won't give Mario Lanza grounds for concern.

"The critics haven't been so kind," Tony admitted. "One reviewer questioned whether I was the son of the record company president."

Such barbs don't daunt him. Tony had the last laugh when RCA-Victor signed him to a long-term contract that could bring in much loot.

It all started with a song he did on a dramatic TV show, "Joey." A small record company signed him up and released six sides. What happened?

"Nothing," Tony said. "Absolutely nothing. Nobody played em, nobody bought em, as far as I could determine."

Now Victor is ready to give him the big push. If he succeeds, it will be a triumph of persistence. Except for a brief course that only confused him, Tony has had no vocal training. He has learned technique by singing along with records he played at home.

Tony is going back to New York where he got his start—as John Kerr's replacement in "Tea and Sympathy." He returns as a star, appearing in the dramatization of Thomas Wolfe's modern classic, "Look Homeward, Angel."

If the play succeeds, he could be stuck in it for at least eight months. How can he afford to take such time out from his thriving film career?

"Because I'll have four unreleased pictures," he explained. "The last one should be coming out about the time I'm through with the play. Then I'll come back here and start making pictures again."

Blind Evangelist Builds Three Bedroom Home in Spare Time

CHARLOTTE, N. C. (AP)—A blind evangelist, guided by the sound of the hammer and the feel of the boards, has started construction of three-bedroom home.

The Rev. Milton Hulsey lost his sight in 1947 through illness. At the North Carolina Preconditioning Center for the Blind, he learned, among other things, the use of tools.

Today, Hulsey, while still an evangelist, operates a candy stand. But at night and on Saturdays he works on his home.

Occasionally he gets help from relatives but he feels that the job is his own project.

By the sound of the hammer, he explained, he can tell whether or not he's striking off center. He guides his sawing with a board cut square.

"Sometimes I really get fouled up when I make a mistake," he said. "But I can't let that stop me. I just start all over."

PRIVATE CHILD NURSERY day or night.

One Is Killed, 4 Wounded In Prison Riot

BUENA VISTA, Colo. (AP) — An inmate of the Colorado State Reformatory was shot to death and four others were wounded last night in a wild, 45-minute riot by 125 prisoners.

They were locked inside a cell block with three guards but soon 60 officers, armed and shooting, broke it up.

Warden James S. Thomas opened fire first.

"It was going really bad by the time I arrived," Thomas said later. "I saw what had to be done, and I set the example. I started firing."

In the turmoil of flying chairs, swinging fists, bunk fires and passing bullets, Evaristo Gomez, 23, was killed. Three other inmates in the thick of the fight were shot in the leg and a bullet hit another in his finger.

Two guards were beaten unconscious.

One of them, Robert Allinger, 47, threw the lock that prevented any of the youths from fleeing. He and guard Sam Montgomery, 45, were then badly beaten.

They were marching more than 200 of the camp's nearly 400 inmates into the cell block after dinner and recreation. Many were still outside the cell block when those inside suddenly grabbed chairs and began pummeling the two guards with their fists and clubs.

"There are about 18 cells on each of the three tiers on each side," Allinger recalled later.

Springfield Youth Is Critically Wounded

SPRINGFIELD, Mo. (AP) — A 17-year-old boy was shot and critically wounded near a Springfield home today.

Police surrounded the house and took into custody a man identified as Jeff Anderson, 74. No charge has been filed.

The wounded boy, Jimmie Parham, stumbled into a neighboring grocery after the shooting and collapsed. He was taken to Burge Hospital and underwent immediate surgery.

Anderson was intercepted at the door of his home and disarmed, Chief of Detectives Sam Robards said. There was no shooting at or by the police. Robards said Anderson was armed with a .22-caliber rifle.

Young Parham was shot twice with a .38-caliber pistol, in the abdomen and groin. Robards said a pistol was found inside the door of Anderson's home.

Air Traffic At Municipal Is Increasing

The Sedalia Municipal Airport traffic is picking up with the arrival of various types of planes of executives coming into Sedalia to visit as well as salesmen and visitors. During the past two weeks, 18 planes have used the airport.

One of the larger planes, a DC-3 of the Peabody Coal Co., St. Louis, arrived the past week, bringing to Sedalia M. C. Kelce, president of the company, and a party of officials. They left Sedalia by motor car and drove to the Windsor area to inspect several of their coal mines.

The large plane, when it taxied up to the administration building's parking area, looked like a mother chicken taking her chicks under her wings as it turned to park near the present planes based at the field.

The plane came from St. Louis and was piloted by R. Boyanousky, and later took off for Kansas City.

Probably the user of the field from Monett, Mo., piloted by Eldon Billings, stopped over for a brief stop; an Acid Engineers Co. plane from Olysses, Kan., piloted by E. Irvin, stopped over for a short time, bringing to Sedalia a nephew of R. G. Jones, Route 1, and returned to Wichita, Kan.; and a plane piloted by a man who signed in as Engle, stopped over from Winona, Minn., enroute to Kansas City, for oil.

D. H. Fearn, of the Missouri Resources and Development, Jefferson City, flew in for a meeting with the Sedalia Air Committee.

A Capitol Aviation plane piloted by Rimkus, based at Springfield, Ill., landed for business at the Missouri State Fair; a plane flying from Springfield, Mo., to Moline, Ill., piloted by Morgerson, made an overnight stop here; and a plane of the Citizens National Bank, St. Louis, flew in bringing a race official who checked on

the cross-country air race Aug. 17.

Another plane from Grand Island, Neb., brought to Sedalia Al Sweeney of the National Speedways who promoted the automobile races at the fair; D. A. Spitzl, Eudora, Kan., came to conduct State Fair business and returned the same day; Sam Thompson, Nashville, Tenn., flew in from Omaha, Neb., stopped for the State Fair and departed for Tennessee later in the day.

On Aug. 17, the airport was busy checking in and out cross-country racing planes on the triangular race from St. Louis to Kirkville to Sedalia and back to St. Charles, Mo. Twenty-seven planes landed, took on gas and flew off on the trip during the race schedule.

Weather Pattern Stays Same Over Most of US

By THE ASSOCIATED PRESS

The nation's weather pattern showed little change today from the past several days. There were several areas of precipitation. Fairly cool weather prevailed in the northern tier of states.

Rain continued and skies were

cloudy in most of the north central section of the country during the night. Rainfall was mostly light in the cool air over the northern Plains and eastward into the Great Lakes region.

Scattered thunderstorms and showers left only small amounts of rain in the northern and central Rockies and in the far Southwest.

Skies were clear in Texas and eastward to the Atlantic Coast except for some cloudiness in Florida, which reported scattered thunderstorms.

The gopherwood used to build Noah's Ark has not been identified.

About Town

Mr. and Mrs. Myron Rodgers and son, Ricky and Miss Ruby Rodgers, 1615 South Missouri, and Mr. and Mrs. Rufus Rodgers, Clinton, formerly of Sedalia, and their daughter, Mrs. Jim Norcross of Kansas City, have returned to their homes after a 3500-mile trip through the eastern and northern states and Canada. They did some sightseeing in New York City, toured New York state, Ontario, Canada, upper Michigan and the Wisconsin dells. They were gone two weeks.

"Small Souvenirs" A small arrangement or composition not to exceed 6 inches

1. Garden Club 6, Sedalia, Mrs. Roy Gerster.

50,000 Calves, Yearlings Will Be Up for Sale

Some 50,000 feeder calves and yearlings will be offered for sale in Missouri cooperative feeder cattle sales during September and annual sales will be held Sept. 16 at Ellington and the final one will be at Paris Oct. 19.

Type and quality of calves offered at these sales have varied from choice downward. However, fewer calves of lower grades have been offered each successive year.

Condition has varied from rather thin to fleshy.

Cattle offered for sale in these farmer-operated sales can be in most buyers' feedlots 24 to 36 hours after they leave their home pastures. They aren't subjected to extreme shrink and clipping losses are low—averaging less than 3% of one per cent. All cattle sold will be dehorned.

As the cattle are delivered to the sale pens, each is numbered and weighed on scales tested by the State Department of Agriculture. The cattle are sorted under the supervision of the Missouri Agricultural Extension Service to uniform lots as to breed, sex, type, quality and condition.

Buyers attending the sales are encouraged to look over the cattle and make tentative selections before the sale begins. Any questions on sale day will be answered by the sale manager or at an information booth.

More information about the 48 Missouri cooperative feeder cattle sales offering some 50,000 head of cattle can be obtained by writing to Mrs. Barnett, Mumford Hall, Columbia, Missouri.

Research Shows Chicks Need Continuous Light

Missouri farmers are taking advantage of the provisions for building water storage and fish impoundments under the Soil Bank's G-2 program. In fact, of the first 14 such facilities constructed in the United States, Missouri farmers built more than 1100, or about 80 per cent of the total.

The state's record was made possible by the cooperation of government agencies, the Missouri Agricultural Extension Service, and the Missouri Conservation Commission. The Conservation Commission has placed special emphasis on the wildlife and forestry aspects of the Soil Bank program.

Too Curious

EUGENE, Ore. (AP)—The curiosity of a 13-year-old boy led to his arrest on burglary charges.

The boy asked Mrs. Ross Mitby whether police had found any fingerprints on an envelope containing three small diamonds taken from a home here.

Suspicious, Mrs. Mitby notified police. They asked the boy for his fingerprints to compare with those left by the burglar. The boy confessed — which made things easier for police who had found no fingerprints at the scene.

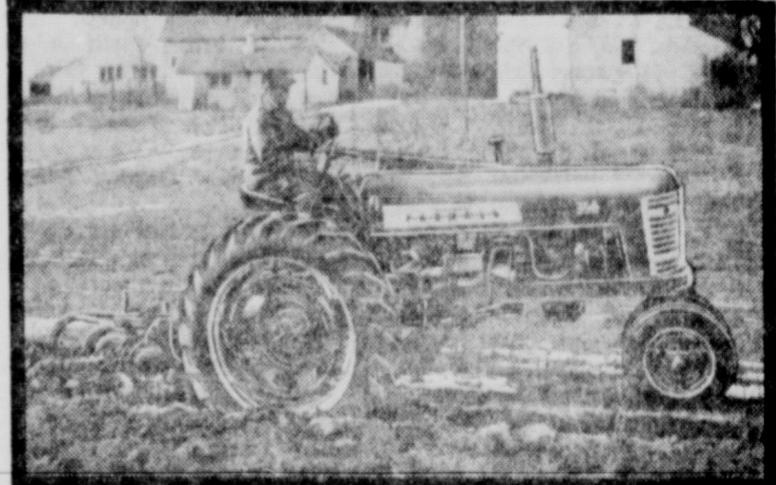

Recommended control for blister beetles in soybeans were residues are not a problem is eight ounces of diieldrin per acre.

Entomologists Find Some Soybean Fields With Blister Beetles

Extension entomologists at the University of Missouri say they have been finding blister beetles in soybeans in some areas. Only a few fields seem to be infested, but the entomologists say those will be seriously hurt in a short time if controls are not used.

Recommended control for blister beetles in soybeans were residues are not a problem is eight ounces of diieldrin per acre.

Area Bid For Industry..

Keen competition among American cities for new industries is nothing new but recently national publicity was given to novel, if not spectacular, promotional programs to get the job done.

Sedalia has always emphasized industrial development and continues to do so through an active and aggressive Chamber of Commerce. Leaders are familiar with the physical potentials Sedalia has to offer new industry, particularly those peculiar to the latter's individual needs.

Now Central Missouri cities are planning to embark on an expanded program to attract industries. The pattern is an area approach similar in essence to that which was developed in southeastern Kansas recently where towns not only worked individually for new industry but also for the area.

Sponsored by Sedalia, Jefferson City, Moberly and Columbia Chambers of Commerce a conference will be held in Columbia Sept. 10 to consider formation of a Mid-Missouri Development Council.

The Washington Merry-Go-Round

Miracle Industry Fails to Perform

By DREW PEARSON

When Ezra Taft Benson first took over the Agriculture Department, his boys referred to poultry as the miracle industry to prove that farmers didn't need price supports.

But today things have gone wrong in the 'miracle industry.' Chicken farmers have birds flying out of their ears. Prices are at disastrously low levels.

Speaking in Gainesville, Georgia, on May 15, 1953, Under-Secretary Morse told farmers:

"There has been no price-support buying of chicken meat, yet broiler growers have increased their output two and one-half times since 1948 . . . It is predicted that a billion broilers per year will soon be produced . . . There are few such 'miracle' stories in agriculture as we are celebrating here today."

GOING — One year later the bloom was still on the rose, though Morse was more cautious in his praise. In Washington, D. C., on June 22, 1954, he declared that "the constructive approach which the leadership of the (poultry) industry has taken has helped point the way to solid progress for the future . . . You are here to further improve the plans by which you make it possible to get greater production . . ."

GOING — By November, 1954, dark clouds were forming on the horizon. However, when he spoke in St. Louis on November 16, 1954, Morse was still optimistic.

"Poultry is suffering from over-production but will adjust to a more profitable basis as 1955 progresses. The expansion was too much to maintain prices," predicted Morse.

GONE — With prices to poultry-raisers still falling, the Agriculture Department or July 12, 1957, announced that it had sought the help of governmental and private lenders in order to restrict credit and thus prevent the further expansion of poultry production.

Poultry production has generally exceeded increased consumer demand, resulting in declining prices to producers—consequently poultry producers have been undergoing financial difficulties," conceded Morse in his epitaph.

Inspecting The Banks

An unusual thing happened the other day among the banks of the 48 states, which don't usually agree unanimously. They all telegraphed Eisenhower, recommending the same man for the Federal Deposit Insurance Corporation which guarantees safe deposits to the American public. This was the first time in 55 years there has been complete unanimity among the Association of state banks.

The man they recommend was William A. Burkett, Superintendent of Banks for California. Ignoring this unanimity, Eisenhower appointed Ex-Congressman Jesse Wolcott of Michigan to this key post.

Wolcott is a fine, honest old gentleman who retired from Congress after serving on the House banking and currency committee. But his appointment runs counter to the policy Ike announced at the Williamsburg Governors' Conference to give the states more participation in federal government.

Guest Editorial—

HARTFORD COURANT: Book Reading. The nation's penchant for book-reading has sagged distressingly during the past nine years. The reasons are many. Certainly there are enough books. And the heavy flow of paperbacks has made many of the world's best titles easily available at small cost. Yet the American Institute of Public Opinion, in examining the nation's reading habits, found that only 17 per cent of the American people today are reading a book, fact or fiction.

This weak reading—the lowest proportion of any English-speaking country—is particularly lamentable in a world where the voices of propaganda are ever multiplying. A nation of mentally alert and discerning citizens is less likely to embrace the demagogue, or the blandishments of mass media and the hidden persuaders than a nation that pauses occasionally to exercise its wits with some healthy, reading diversion.

But reading as diversion is under heavy competition. Television has virtually closed many a home library. And an untold number of youngsters would be genuinely puzzled by the sight of their parents settling down quietly for an evening of book-readings. As these youngsters grow into high school and college, educators are discovering to their increasing dismay that students do not know how to read. The institute survey points out, too, that only a slim percentage of college graduates continue reading, once out of college. This does not augur well for the nation's general intelligence. Saddest fact of all, a vast source of enjoyment is being missed by those who thus disinherit themselves. —

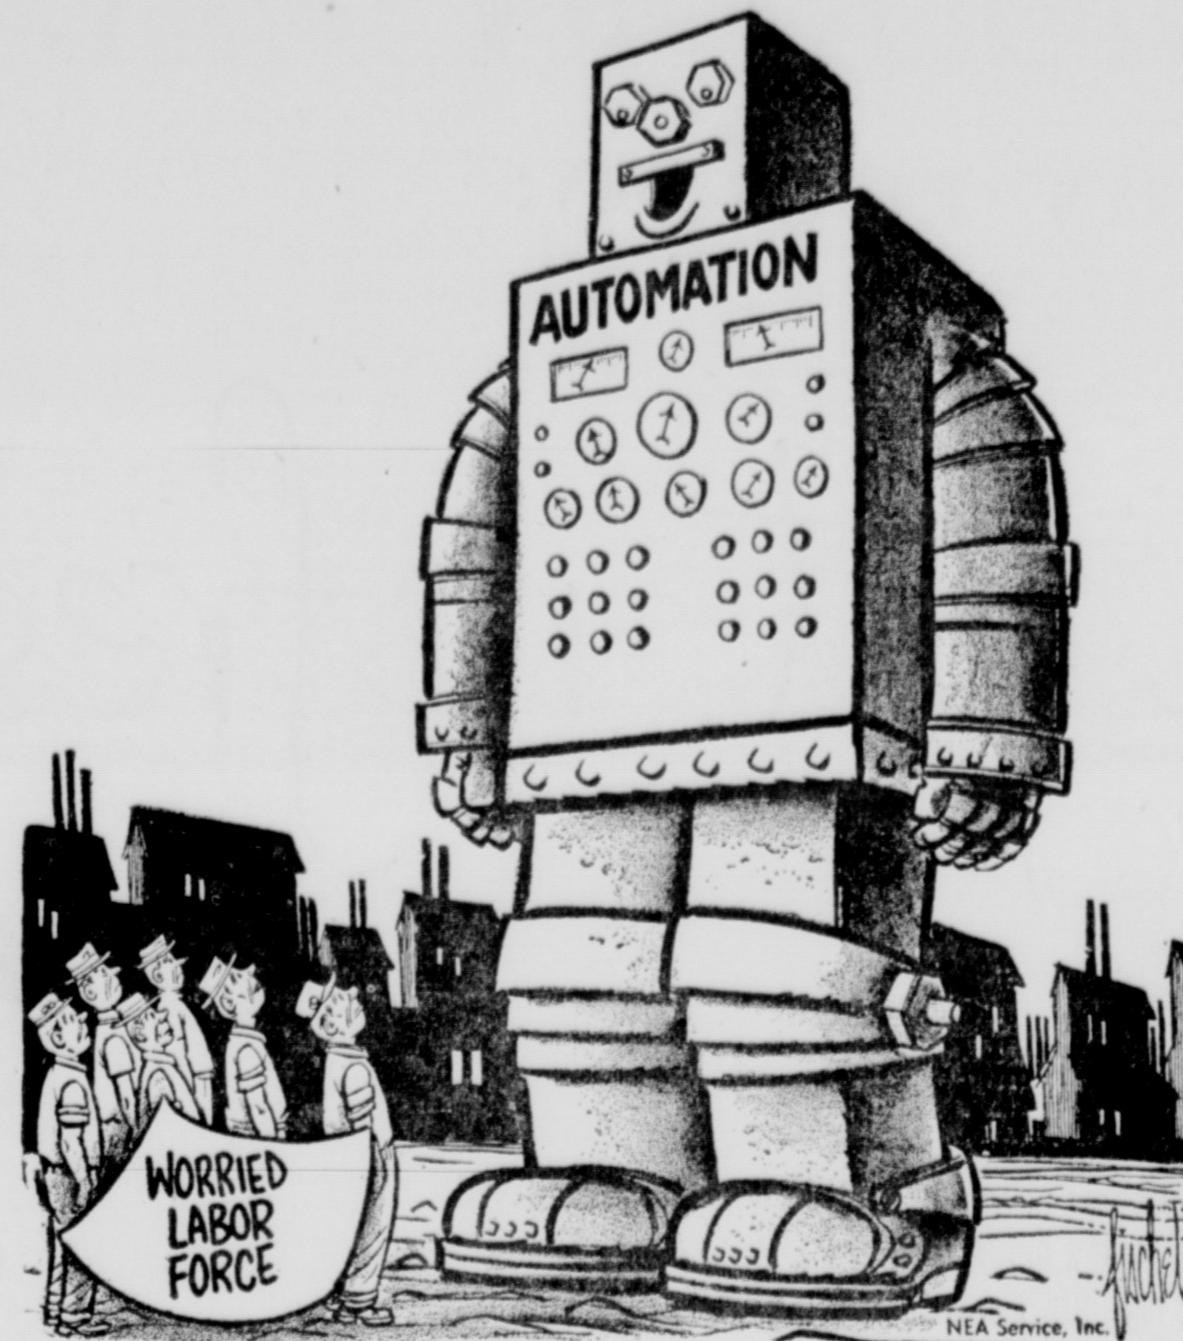

Forty-seven Central Missouri communities have been invited to participate. Proponents of development council believe it would lend strength to Central Missouri's competition with other areas in that a regional group can do effective work on such things as initial contacts, industrial brochures, industrial surveys, enabling each community to do a more thorough job and at much less cost.

There is superabundance of information which could be pooled about Central Missouri's potential in bids for new industry. A Mid-Missouri Development Council may well be the device to consolidate it. Prospects will find such material an effective means to make more equitable decisions on locations.

Area cooperation in bids for new industry need not work to the disadvantage of each community's specific industrial planning and promotion programs.

The spark of individual competition among the cities should not be smoldered, rather it should be allowed to glow and generate energy to obtain area objectives, too.

Dulles Botched Case for US Newsmen

By JAMES MARLOW

Associated Press News Analyst
WASHINGTON (AP)—If Secretary of State Dulles and his State Department had deliberately set out to mess up the chance for American newsmen to go to Red China they couldn't have done it better.

For a year Dulles had refused to let American reporters go to the China mainland. For a year he had been under pressure from American news and radio-TV executives and some members of Congress to lift his ban.

He yielded last Thursday — to a very limited degree—by saying 24 reporters could go to Red China for a trial period of six months.

But at the very moment of doing so, he and his department used language which seemed unnecessary, unless perhaps for face-saving, and which the Red Chinese could hardly fail to find insulting.

Dulles said the Red Chinese couldn't send their reporters here on a reciprocal basis and his department, explaining why the ban had been eased a bit on Americans going to China, suggested it was because the newsmen might find disasters there.

The Communists reacted, as they might have been expected to,

Looking Backward...

TWENTY-FIVE YEARS AGO

"Pepper" Martin, Paul Derringer, "Dizzy" Dean and Jimmy Wilson, St. Louis Cardinals baseball stars, were here to play with an all-star baseball team made up of players from Boonville, Marshall, Cole Camp, Sweet Springs and Concordia against the Sedalia Athletics. Stopping at the Hotel Bothwell, they met numerous fans and baseball admirers.

1932 Mayor James Curley and former Congressman Joseph R. Conry, Boston, Mass., made brief talks from the observation platform of a Missouri Pacific train Sunday morning which was taking them homeward from a western trip in interest of the campaign of Gov. Franklin D. Roosevelt, New York, for the presidency.

The aged German statesman's remarks when speaking before the National Press Club in Washington during his recent visit were truly significant. He said: "The joint declaration that the United States does not intend to take any action in the field of disarmament which would prejudice the re-unification of Germany is an important political document, not written for an election, but for a world situation, not just for Germany, but for the world."

1932 The Rev. Druffel, assistant pastor at Sacred Heart parish since 1929, was assigned as assistant spiritual director of the School Sisters of Notre Dame, at Milwaukee, Wis.

In the first game of a three-game series for championship in the Pettis County League, LaMonte defeated the Chevrolet Motors Club in a 14 inning contest, 8 to 7.

1932 FORTY YEARS AGO

Lawrence N. England and Joseph Starr Jr., Sedalians in the Fourth Missouri Infantry in camp at Nevada, were visited Sunday by Mr. and Mrs. V. P. Englund and daughters and J. A. Starr.

1917 Mrs. E. B. Lyon and daughter, Miss Velma, returned from Kansas City where they had visited for ten days.

1917 Raymond Brimmer, South Quincy, and Frank Brinker, West Sixth, left for St. Louis to be assigned to a Navy training station. They recently enlisted in that branch of the service.

1917 Charles W. Collins, until recently secretary of the Chamber of Commerce at Potow, Okla., was elected secretary of the Sedalia Chamber of Commerce at a meeting of its board of directors. He was to succeed S. E. Spencer, resigned.

Labor day recipe:

Light refreshment

MODERN people have little time for yesterday's heavy foods. They pack their picnic baskets with light, less-filling food and drink—and they look and feel better for it.

Pepsi-Cola, too, takes this modern point of view about sensible diet. Never heavy, never too sweet, today's Pepsi is reduced in calories. Pick up a few cartons of Pepsi to enjoy at the beach, to refresh without filling wherever you week-end.

Pepsi-Cola
refreshes without filling
